“Nothing that we do to, or for, our students is more important than our assessment of their work and the feedback we give them on it. The results of our assessment influence our students for the rest of their lives and careers—fine if we get it right, but unthinkable if we get it wrong”.

(Race, Brown, & Smith, 2005, p. xi)
Providing Learner-Centered Feedback Using a Variety of Technologies

Jane Costello   Daph Crane
Distance Education Learning and Teaching Support

5 March 2014
Feedback

• Provides learners with information on how they’re performing.
• Is not the grade on a paper (Wiggins, 2012).
• Is the comments, questions, information, on how we are achieving our predetermined goal.
• Includes emoticons, facial expressions, language, tone, body language, gestures, and comments made during the learning process.
• Can be related to assessment and grades.
Assessment

• Ongoing (Martel & Calderon)
• Way of determining learner growth in KSAs
• Provides learners with information on how they’re performing
• Summative-Formative
Learner-Centered Feedback

• Focused on the learner
• Information about their performance (JISC)
• Focus on improvement and how to bring work to the next level
• Part of the learning process (Blumberg)
• Coaching
• Learner autonomy
Why Learner-Centered?

- Aids in learning
- Confirms learning
- Encourages learner to think beyond mandate of assessment
- Learner gains confidence
- Helps learner reflect
When?

• When do we provide feedback?

Let’s explore…

What is it’s purpose…
Purpose of Feedback

• Lets learners know they are doing well
• Corrects misconceptions
• Makes suggestions for improvement
• Promotes motivation
• Highlights what learners are learning
• Identifies learner challenges
• Provides sense of gratification
• Provides a grade
Types of Feedback

- Formative
- Summative
- Formal
- Informal
- Intrinsic
- Extrinsic
- Internal
- Informational
- Instructional
- Corrective
- Appreciative
Etiquette

• Timely
• Constructive
  • Positive comments
• Clear
• Concise
• Motivating
• Provides suggestions for improvement
• Focuses on the content and criteria
• Avoids huge “X”
• Not formulated under fatigue
Guidelines

SMART

- Specific
- Meaningful
- Applicable
- Reflective
- Timely

FIDelity

- Frequent
- Immediate
- Discriminating
- Lovingly delivered
Nichol’s 7 Principles

- Clarifies expectations
- Promotes self-assessment & reflections
- High-quality info about learning
- Teacher and peer dialogue
- Positive motivation and self-esteem
- Close the gap
- Teacher improvement
Approaches to Feedback

- Critical thinking
- Constructive feedback
- Checklists
- Rubrics
- Attainment of competencies
- Self-assessments or self-checks
- Continuous feedback throughout work
E-feedback Methods

• PARTICIPANTS:

• What types of e-feedback have you used?

Type responses in chat/text box.
E-feedback Methods

- Audio
- Video
- Rubrics (electronically)
- Text-based (electronically)
- Document markup with slates and tablets
- Screen captures with annotations
- Scanning of handwritten comments
- Email and text messaging
- Automated
- Synchronous sessions
Audio

- Include the learner’s name in the file name
- Identify the assignment name, learners name, date and your name in the audio file
- Speak clearly and slowly
- Signoff with your name and a way for learners to contact you
- Send raw files, or embed in submitted document
Mike’s Cupids Feedback audio file

The History of Cupids

The history of Cupids is interesting as it is the oldest European settlement in North America.

The first year round settlement in Cupids was in 1610, when John Guy and fourteen men settled there. To prepare for the winter, they built a shelter for themselves, the animals, and their provisions.
Video Screen Captures

- Can use free software for example: Cam Studio
- Can use Captivate or Camtasia
- Can provide better explanation
- Time for learning software

Text-Based

- Word processor
- Use comments tool rather than track changes
- Or add column to record comments
- You can adjust your comments easily
- Less paper (when not printed)
- Faster return
In comparing “The Song My Paddle Sings” by Pauline Johnson, a First Nations Canadian, to the “Paddle to the Sea” by Holling Clancy Holling, an American. “The Song my Paddle Sings” is a poem and “Paddle to the Sea” is a children’s book. Both of these pieces of Canadian literature, tell the adventures of a canoe, one a real canoe and the other a toy, on Canada’s inland waterways.

<table>
<thead>
<tr>

</thead>
<tbody>
<tr>
<td><strong>Cognitive Theory</strong></td>
<td>It is good to identify the theorists associated with the chosen theory. You provided a clear definition.</td>
</tr>
<tr>
<td>The cognitive theory is based on works by Gestalt, Bode, Paiget, Ausubel, Bruner, and Gagne. In the cognitive theories the learner makes meaning of their experiences. A cognitive process takes place that enables the learner to piece together experiences to find solutions to problems. Knowledge is transferable from one situation to another. ‘Deep’ learning can take place when reason rather than rote learning is used. Methods that can be used for the cognitive theory include case studies, simulations, problem-based learning (Merriam &amp; Caffarella, 1991).</td>
<td>Could this theory be used for surface learning?</td>
</tr>
<tr>
<td></td>
<td>Why did you choose this theory?</td>
</tr>
<tr>
<td></td>
<td>What about it drew your attention?</td>
</tr>
<tr>
<td></td>
<td>Can you think of other examples or non-examples of methods?</td>
</tr>
<tr>
<td></td>
<td>Careful of grammar.</td>
</tr>

Why the date at the top? Where is the cover page?

My Experiences as a Lab Rat Being Interrogated by the FBI

This morning I went to the **Voice Clinic at Alphabet Hospital**. I was treated as a lab rat and major criminal.

When I went to the reception counter I was given forms to fill in, asking permission to use the video tapes taken for teaching, and educational purposes. Being an instructional designer I did not have problem doing this. In retrospect, it may have been better to wait to sign these. I think I am being used as a lab rat.

I had an appointment for 10:30. It was after 11:00 before anyone said anything to me.

At about 11:05 I entered a room that had on one side a table with three chairs….all occupied. On the other side was a chair for me. Obviously the three on one side of the
Markup with Tablet

• Use the stylus or mouse to 'write' on learner's documents through an input panel or on the slate
• Script is overlaid on document and when saved it becomes part of document
• Some technologies convert script to text
Sample Markup with Tablet

- Train the tablet to recognize your writing using its Pen Flicks technology
- Use the Input Panel or slate to 'write' your feedback with stylus or mouse
Sample Markup with Tablet

• Correct script from available choices
• You can
  o select alternate words
  o strike out words to delete
  o remove words from dictionary
  o identify origin of words for spelling
Sample Markup with Tablet

- Text appears in your document
- Spell check or adjust font or layout
- Return to learner
Screen Captures

- Ctrl + PrtScrn - for entire screen
- Ctrl + Alt + PrtScrn - for active window
- Use Screen Capture software to control regions of screen or whole screen
- Software often comes with computer
- Useful in some situations
free collaborative tools

My Experiences as a Lab Rat Being Interrogated by the FBI

This morning I went to the **Voice Clinic at Alphabet Hospital**. I was treated as a **lab rat** and major criminal.

When I went to the reception counter I was given forms to fill in, asking permission to use the video tapes taken for teaching, and educational purposes. Being an instructional designer I did not have problem doing this. In retrospect, it may have been better to wait to sign these. I think I am being used as a lab rat.

I had an appointment for 10:30. It was after 11:00 before anyone said anything to me.

At about 11:05 I entered a room that had on one side a table with three **chairs....all occupied. On the other side was a chair for me. Obviously the three on one side of the room were on a team and I was not to be included in that team. (Out of date health care style?) I was definitely **out of the loop**. Could have been the scene...
Scanned Handwritten Comments

• Use pen to write comments then scan paper
• Learners still need to be able to decipher script!
• Reduces redistribution time
• Permanent record of feedback
  • can discuss online or through email
• Need access to scanner

Email and Text Messaging

- Send feedback in email message or as attachment
- Use text messaging
  - might find a translator useful
  - http://www.noslang.com/
Hi Jane,

Attached is your assignment feedback.

You did very well with this assignment. I like your use of the Lab Rat analogy. More detailed feedback is in the attachment.

Daph Crane MDE
Sample Text Message

Message reads:
gr8 work 9l10 spk l8r pcm dc
Automated

- Good for quick checks or self-assessments
- Provides instantaneous feedback
- Allows learners to repeat exercise multiple times
- Identifies areas for further work
- Can promote motivation
- Takes time to setup and often requires programming
Automated Examples

- Drag and drop
- Branching stories
- Multiple choice with direct feedback
- Short answer with direct feedback
- Drop down, toggle for checklist, or answer button etc.
- Labeling with direct feedback
- Image/diagram manipulation
The Angiocatheter

Drag the text to the appropriate part of the angiocatheter

Flash back chamber  Catheter  Needle  Catheter hub  Hydraulic filter

Printable version  RESET
Sample Automated

[Graph showing changes in total revenue and total cost, with a break-even point marked at 50 units sold, indicating a profit of $55.26 when revenue is $360.04 and fixed costs are $200.00.]
Synchronous

- Face-to-face
- Telephone
- VOIP (Skype, E-Live!, NetMeeting, etc.)
- Webconferencing (E-Live!, Adobe Connect, Webex, NetMeeting, etc.)
- Text chat (IM, Yahoo, etc.)
- Txt messaging (cell phone)
Synchronous

- Two-way interaction
- Method of choice if a learner did poorly
- Be aware of:
  - body language
  - tone of voice
  - response from learner
- Invite further discussion
Sample Synchronous

Daph Crane
Hi Jane, would you like to discuss your assignment?
1:03 PM

Jane Costello
yes, I'm interested to see how I did
1:03 PM

Daph Crane
You did well. Let's start at the beginning.
1:03 PM

Jane Costello
oh, thank-you. I was a bit worried. I wasn't sure how I'd done.
1:04 PM

Daph Crane
I like your analogy of the lab rat. You use it well throughout your paper.
1:04 PM
This was an excellent way to make your point.
1:05 PM

Jane Costello
thanks
1:05 PM

Daph Crane
In paragraph 3, you used a run on seid this in formal writing. ntence. We try to av
1:05 PM
I'll try again, In paragraph 3 you used a run on sentence. We try to avoid this in formal writing.
1:06 PM
I like the way you ....
1:07 PM
learner-centered
Questions

Thank-you!
