

Site concept – Vancouver Island Marinas

The website will have information on marinas on Vancouver Island, breaking the island up into 5 distinct areas: south island, central island, gulf islands, west island, and the north island. Each area will list the marinas available, including the services that each marina offers boaters.

The marinas will be displayed on a map, using the user location to find the nearest marinas, if possible.

Basic boating safety information will be offered too, including marine weather for the marina areas, links to the Transport Canada pleasure craft operators guide and Canadian collision regulations, and information on what to do in the event of an accident or emergency.
