The Open Networked Learning course and educators perceptions on digital competences and community inquiry, during the course

Santos, D. ; Åbjörnsson, L.; Creelman, A.; Pareigis, J.; Lars Uhlin, Cleveland-Innes, M.; Theilmeier, G.; Kvarnström, M.

Who we are

Alastair Creelman - ONL organizer
e-learning specialist at Linnaeus
University

Danielle Santos
Scientist at University
of Oldenburg

Gregor Theilmeier
Professor at University of
Oldenburg

Jörg Pareigis - ONL organizer
Head of the Centre for Teaching and
Learning at Karlstad University

Lars Uhlin - ONL organizer
Educational developer at
Linköping University

Lotta Åbjörnsson - ONL organizer
Educational developer at Lund
University

Maria Kvarnström - ONL organizer
Senior Lecturer at
Linköping University

Marti Cleveland-Innes
Program Director of Education
Athabasca University

- **Open Networked Learning course**
- **Methods**
- **Results**
- **Discussion**

AGENDA

ONL - Open Networked Learning

Developed as a response to a growing need for courses dealing with the use of digital tools for teaching and learning

Started in 2014 and was intended to take international and cross-institutional collaboration

Learning environment

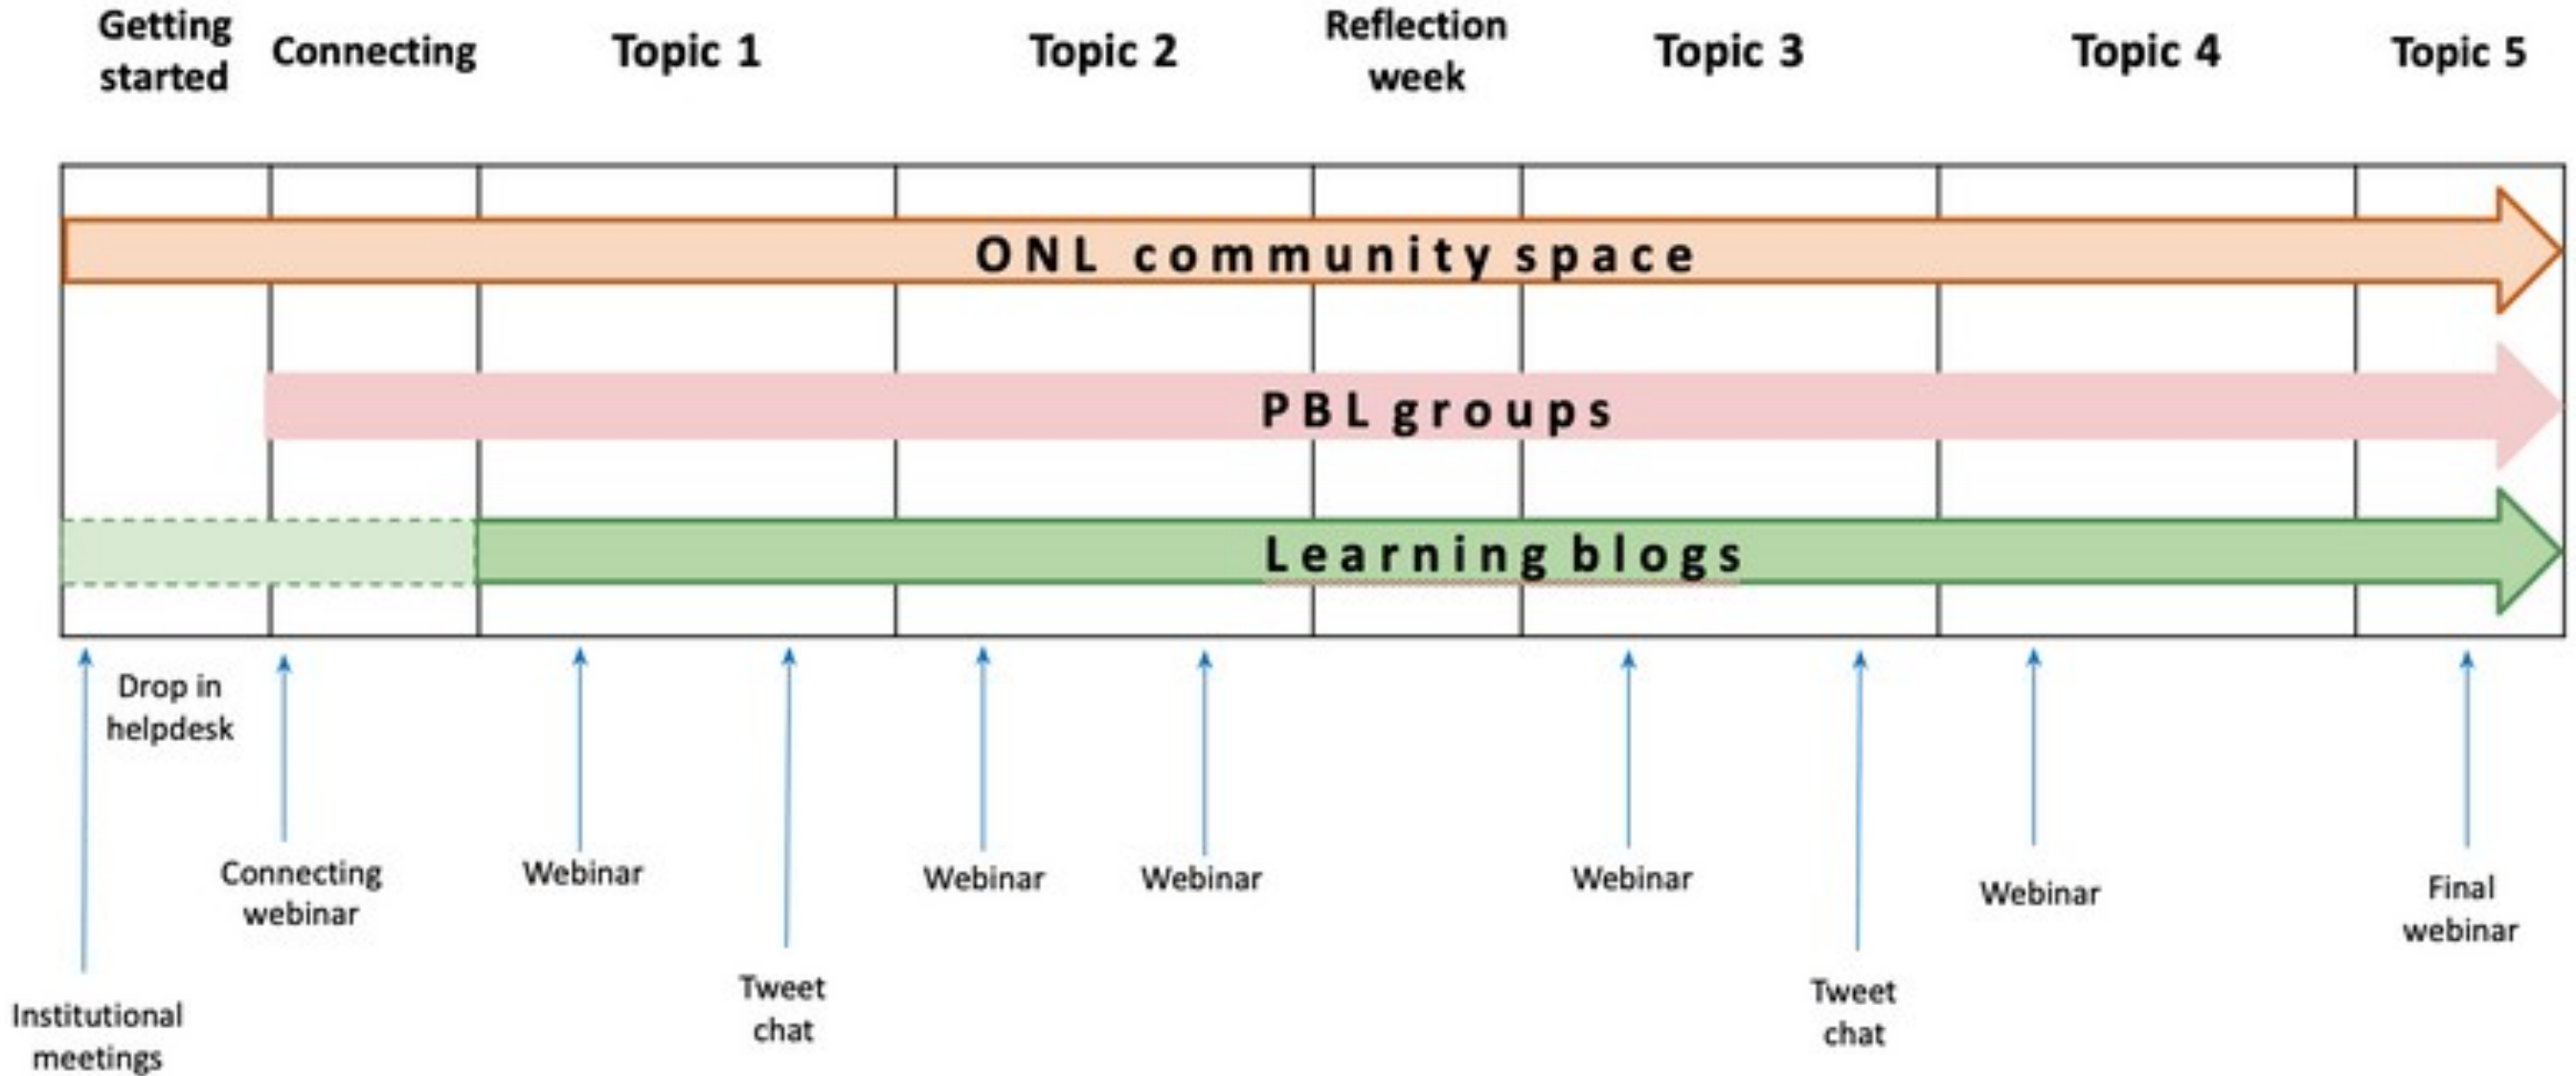

Image from ONL group

“An intention in designing the course is to develop a community of practice that can enhance understanding of what personal learning networks and environments can mean and how these can be built”

ONL organizers

Course overview

Getting started

1 week

Connecting

1 week

Online participation & digital literacies

2 weeks

Open learning, sharing & openness

2 weeks

Reflection week

1 week

Learning in communities - networked collaborative learning

2 weeks

Design for online & blended learning

2 weeks

Lessons learnt - future practice

1 week

Equivalent to two weeks of full time studies (80 hours)

Image from ONL group

Target group: university teachers, educational technologists, educational developers and courses designs.

Image from ONL group

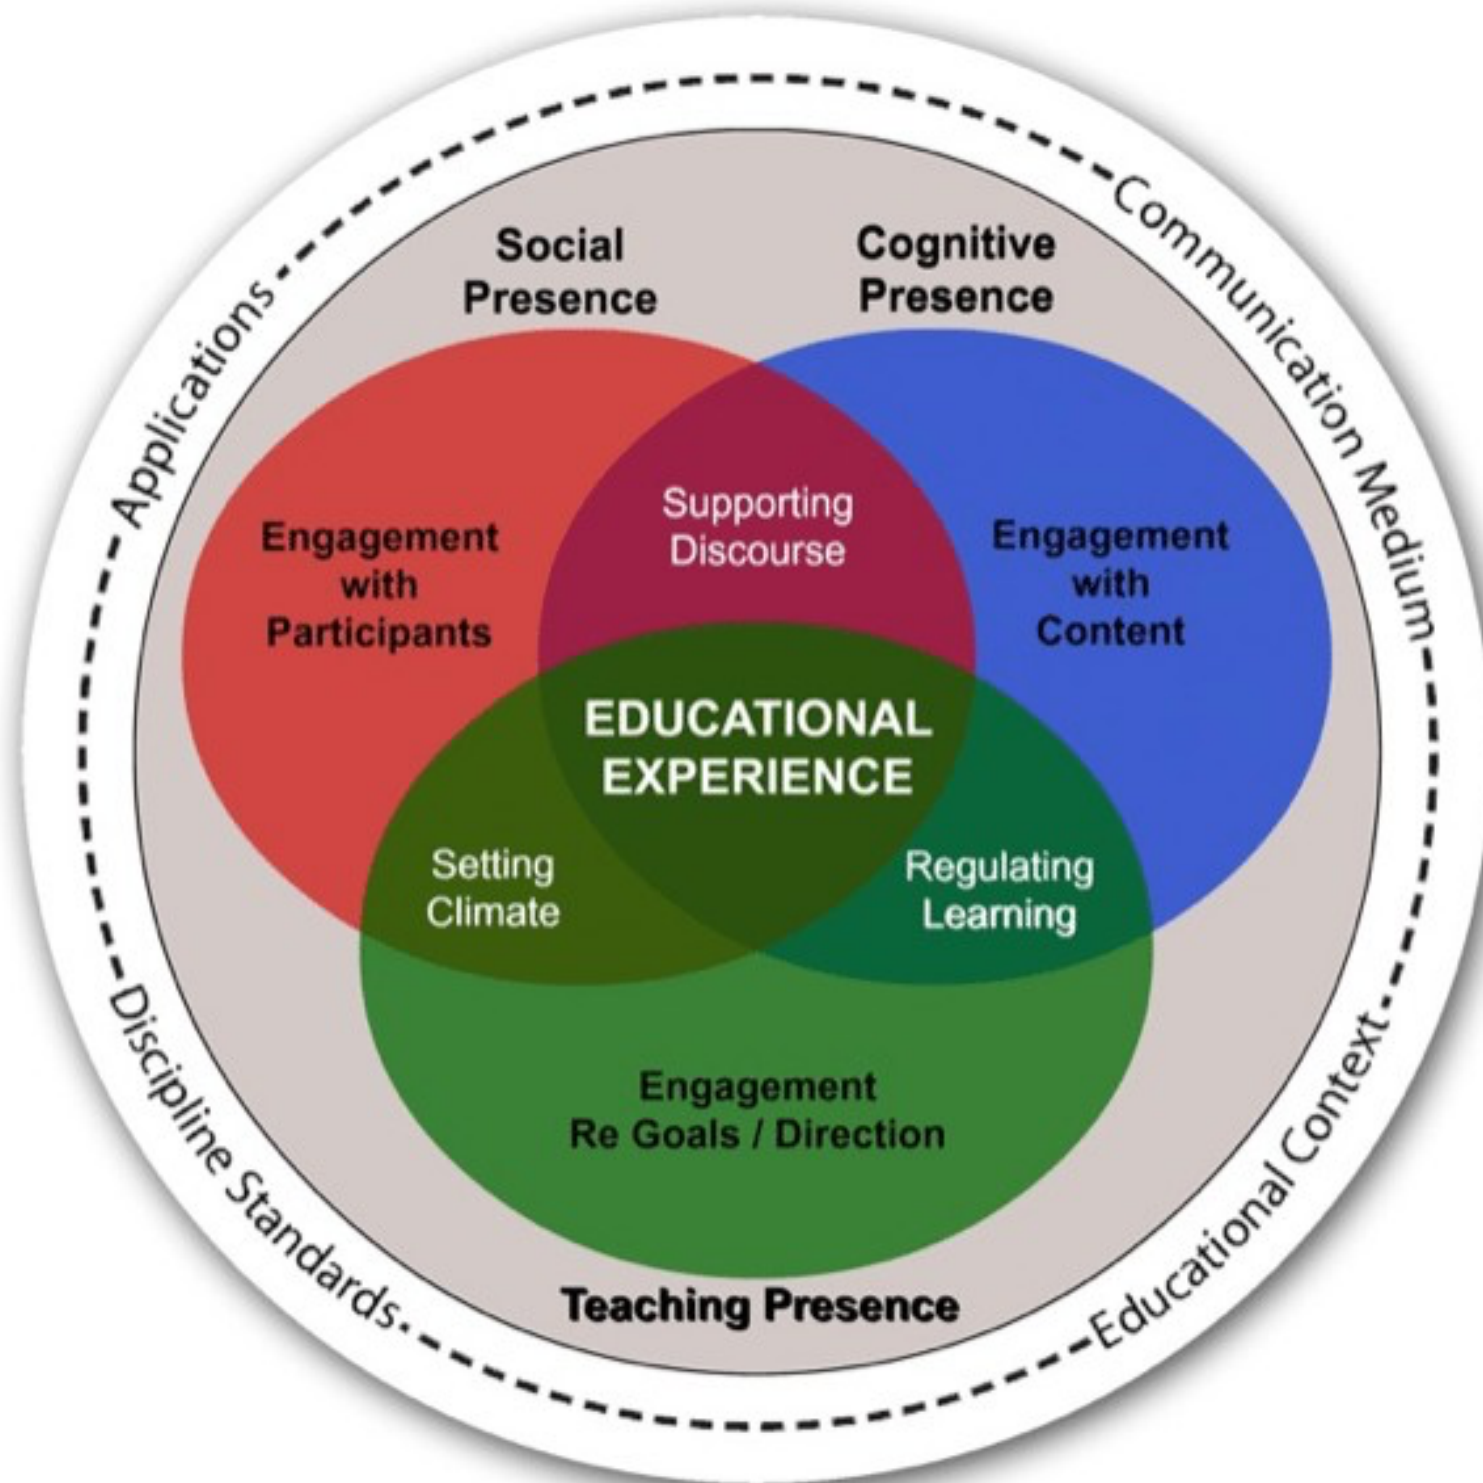

Research questions

1. Do the educators who joined the course change their perception related to digital competences and community building after the course?
2. Which area they could improve most (digital competences or community building)?

METHODS

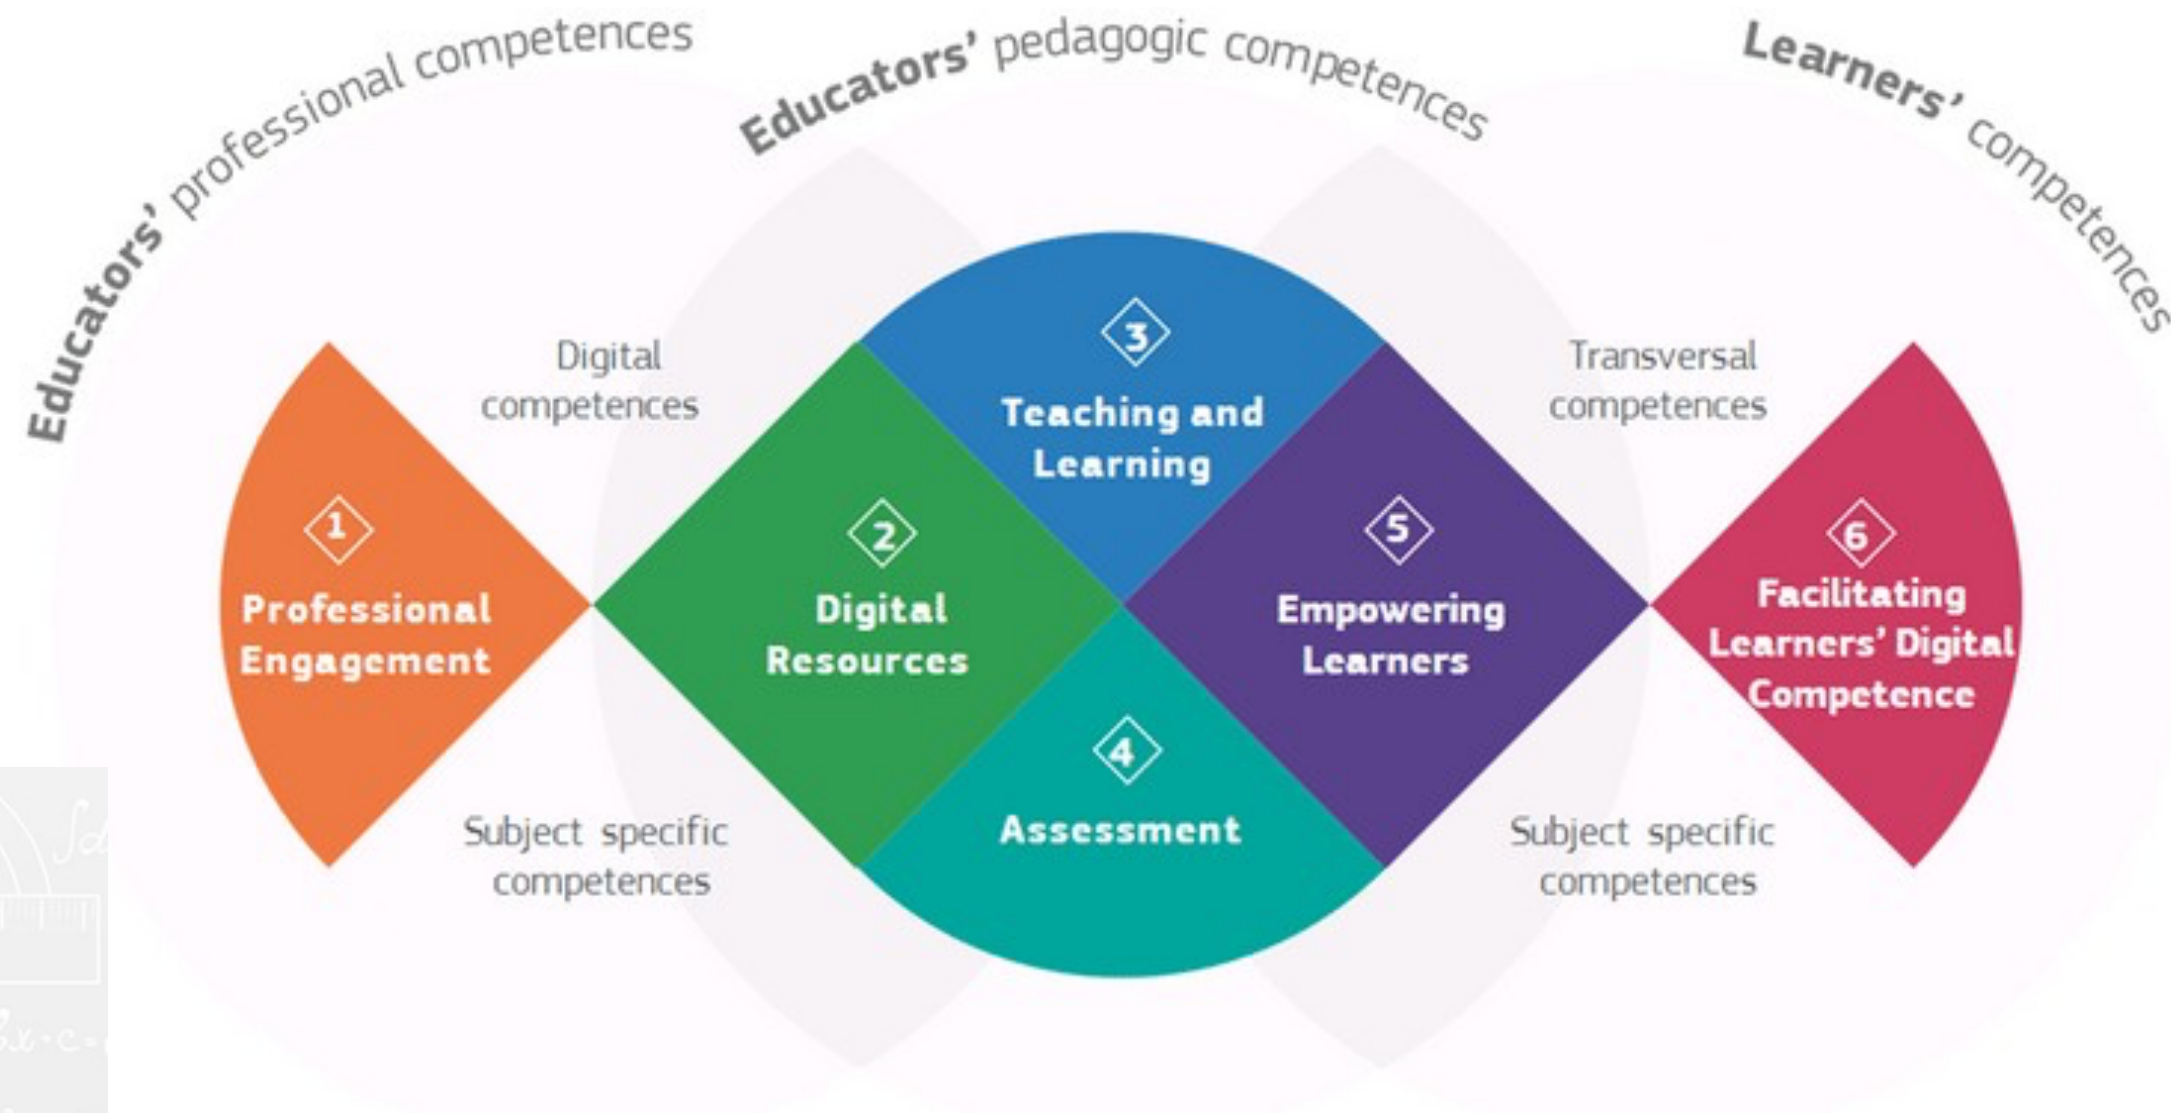

2 instruments to access changes

COI - EDUCATOR VERSION

Presence	Subcategories
Cognitive presence	Triggering event
	Exploration
	Integration
	Resolution
Social presence	Open communication
	Group cohesion
	Personal expression
Teaching presence	Direct instruction
	Facilitation
	Design and organisation
Emotional presence	Teaching presence
	Social presence
	Cognitive presence

DIGCOMPEDU

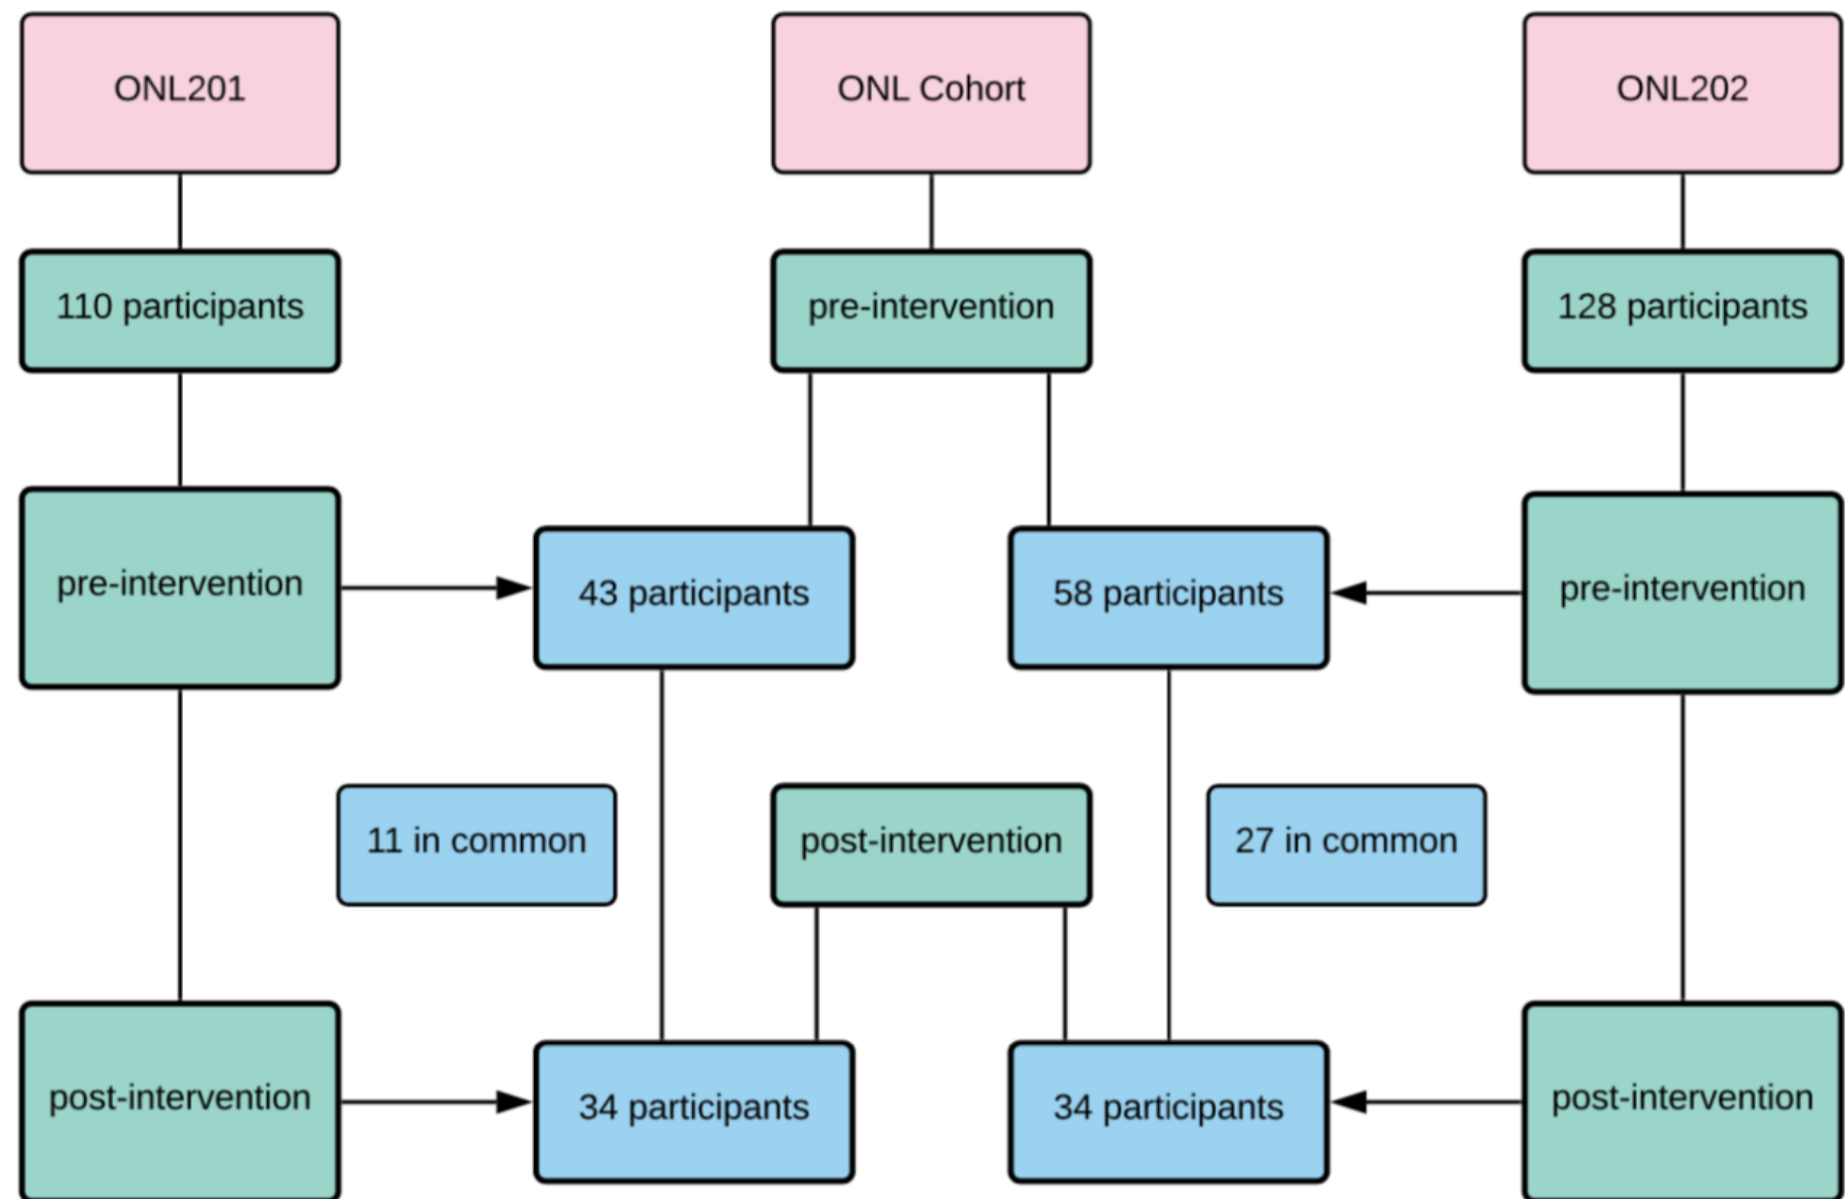

Time frame

Iterations: ONL201 and ONL202.

PARTICIPANTS OVERVIEW

PARTICIPANTS OVERVIEW

DigCompEdu	Mean/SD – pre-intervention ONL201 (n=43)	Mean/SD – pre-intervention ONL202 (n=58)	p
DigCompEdu global value	43.35/17.19	46.59/14.07	0.30
Area 1- Professional engagement	9.02/3.57	9.29/2.71	0.67
Area 2 - Digital resources	6.23/3.15	6.19/2.39	0.94

COI - COGNITIVE PRESENCE

Results

Participants distribution according to their in COI - Cognitive presence

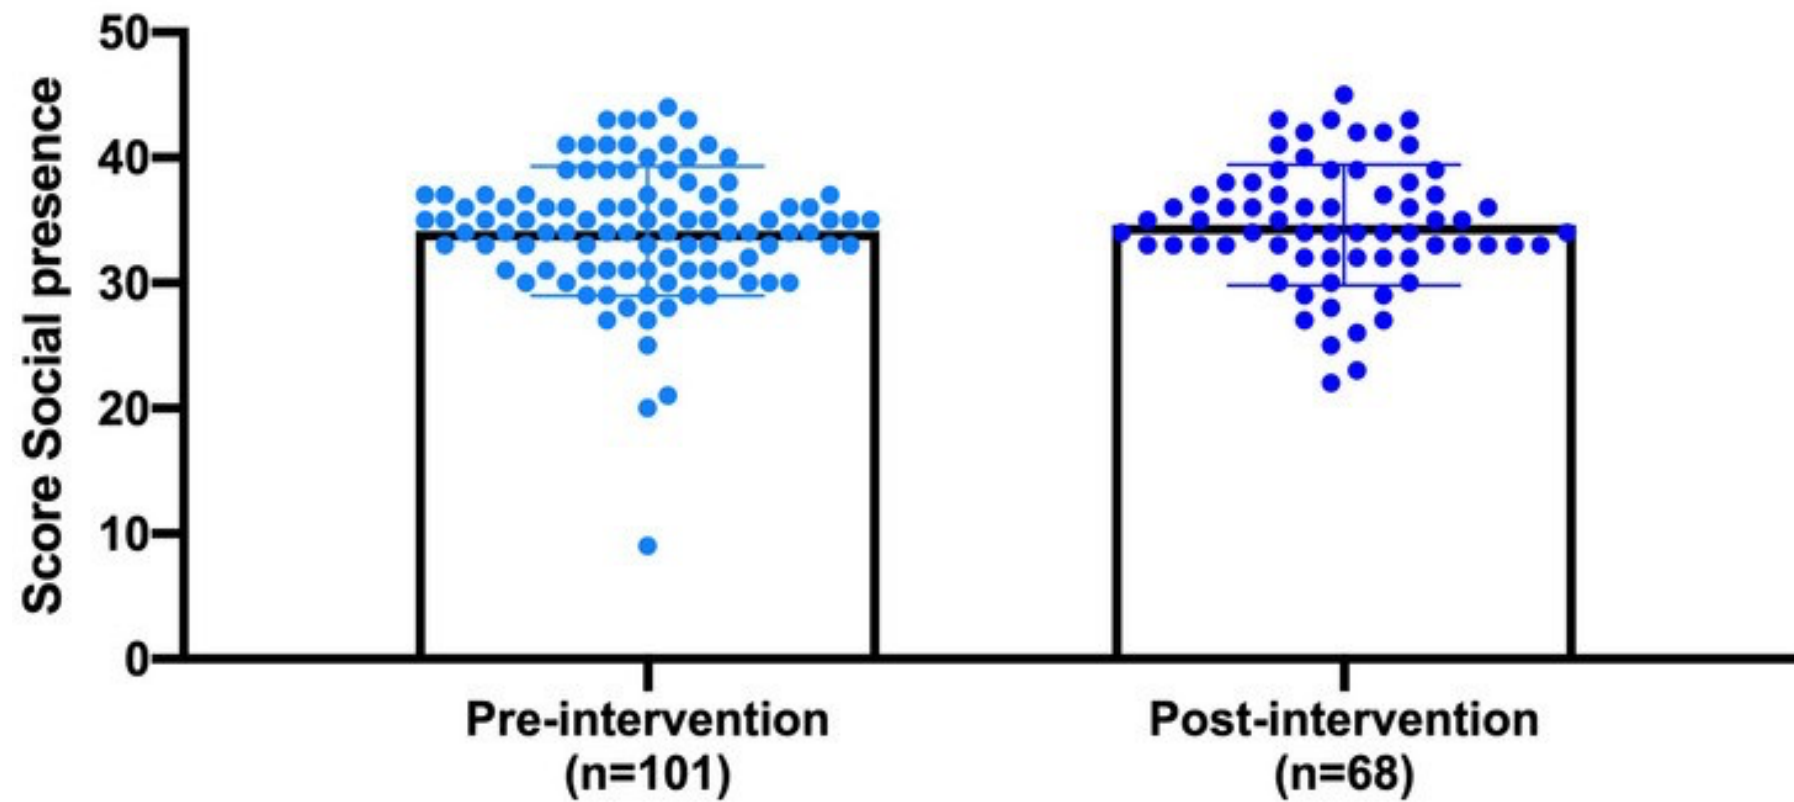

T test to dependent sample (n=38)

Community of Inquiry	Mean/SD – pre- intervention (n=38)	Mean/SD – post-intervention (n=38)	p
Cognitive presence	47.84/5.25	48.87/5.76	0.115

COI - SOCIAL PRESENCE

Results

Participants distribution according to their in COI - Social presence

T test to dependent sample (n=38)

Community of Inquiry	Mean/SD – pre- intervention (n=38)	Mean/SD – post-intervention (n=38)	p
Social presence	34.26/4.95	34.76/4.96	0.420

COI - TEACHING PRESENCE

Results

Participants distribution according to their in COI - Teaching presence

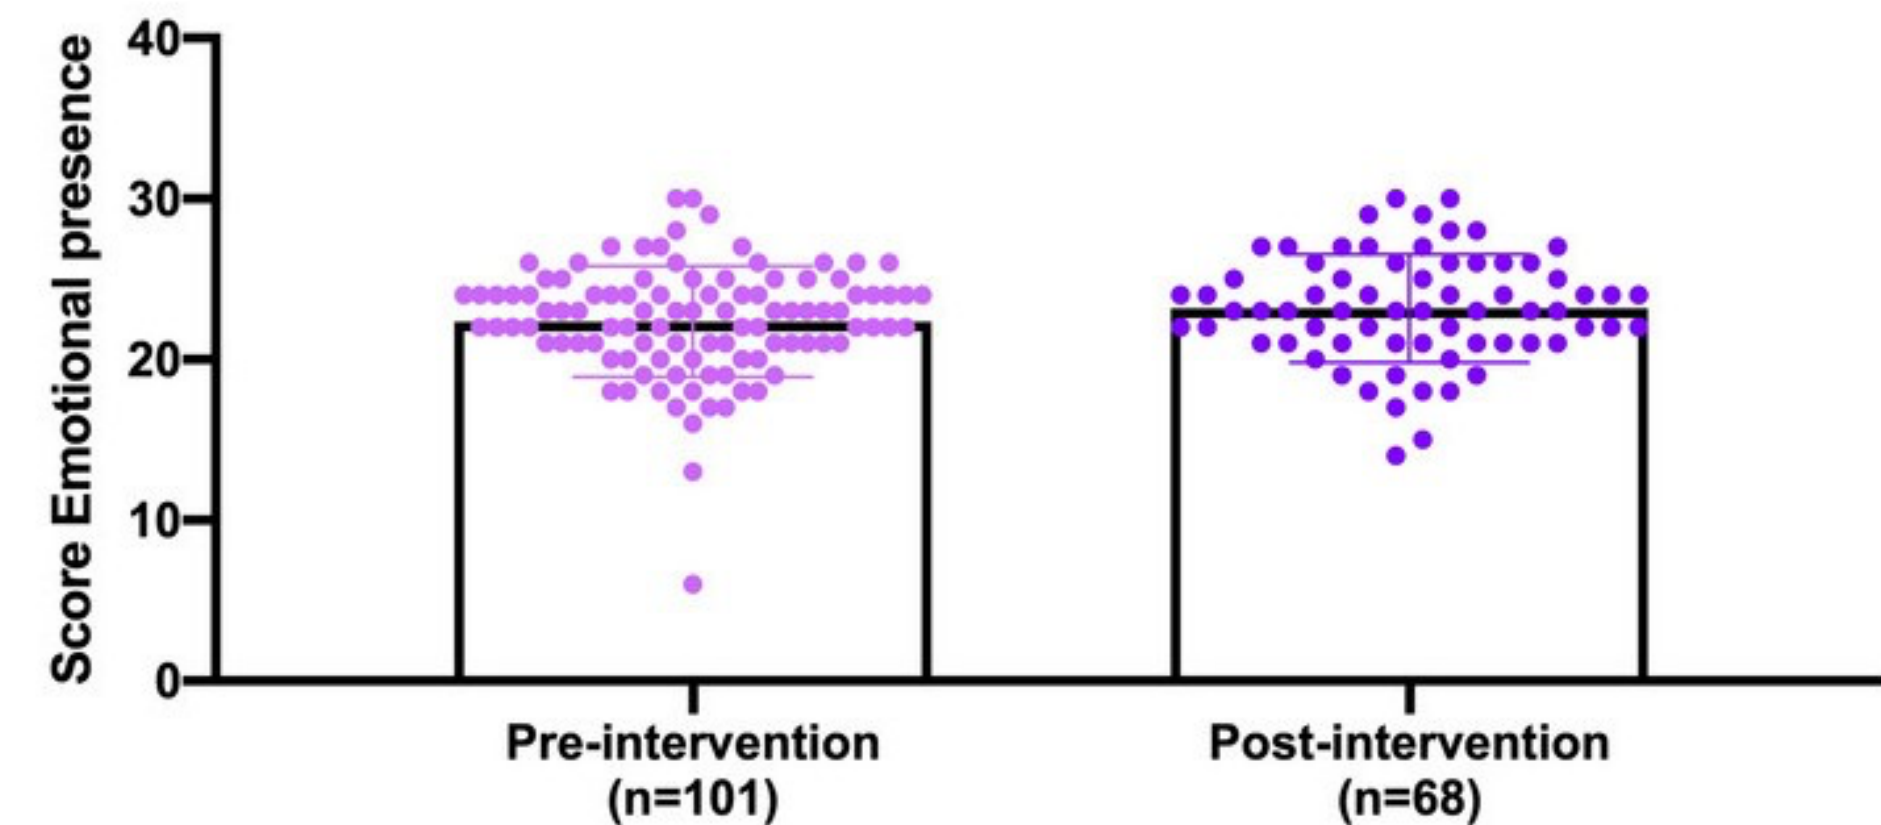

T test to dependent sample (n=38)

Community of Inquiry	Mean/SD – pre- intervention (n=38)	Mean/SD – post-intervention (n=38)	p
Teaching presence	51.87/6.58	52.87/5.85	0.156

COI - EMOTIONAL PRESENCE

Results

Participants distribution according to their in COI - Emotional presence

T test to dependent sample (n=38)

Community of Inquiry	Mean/SD – pre-intervention (n=38)	Mean/SD – post-intervention (n=38)	p
Emotional presence	22.39/3.44	23.58/2.92	0.017*

DIGCOMPEDU - AREA 1

Area 1- Professional Engagement

- 1. Organisational communication
- 2. Professional collaboration
- 3. Reflective practice
- 4. Digital CPD

T test to dependent sample (n=38)

DigCompEdu	Mean/SD – pre- intervention (n=38)	Mean/SD – post-intervention (n=38)	p
Area 1- Professional engagement	8.92/3.43	10.63/3.06	0.000*

Results

DIGCOMPEDU - AREA 2

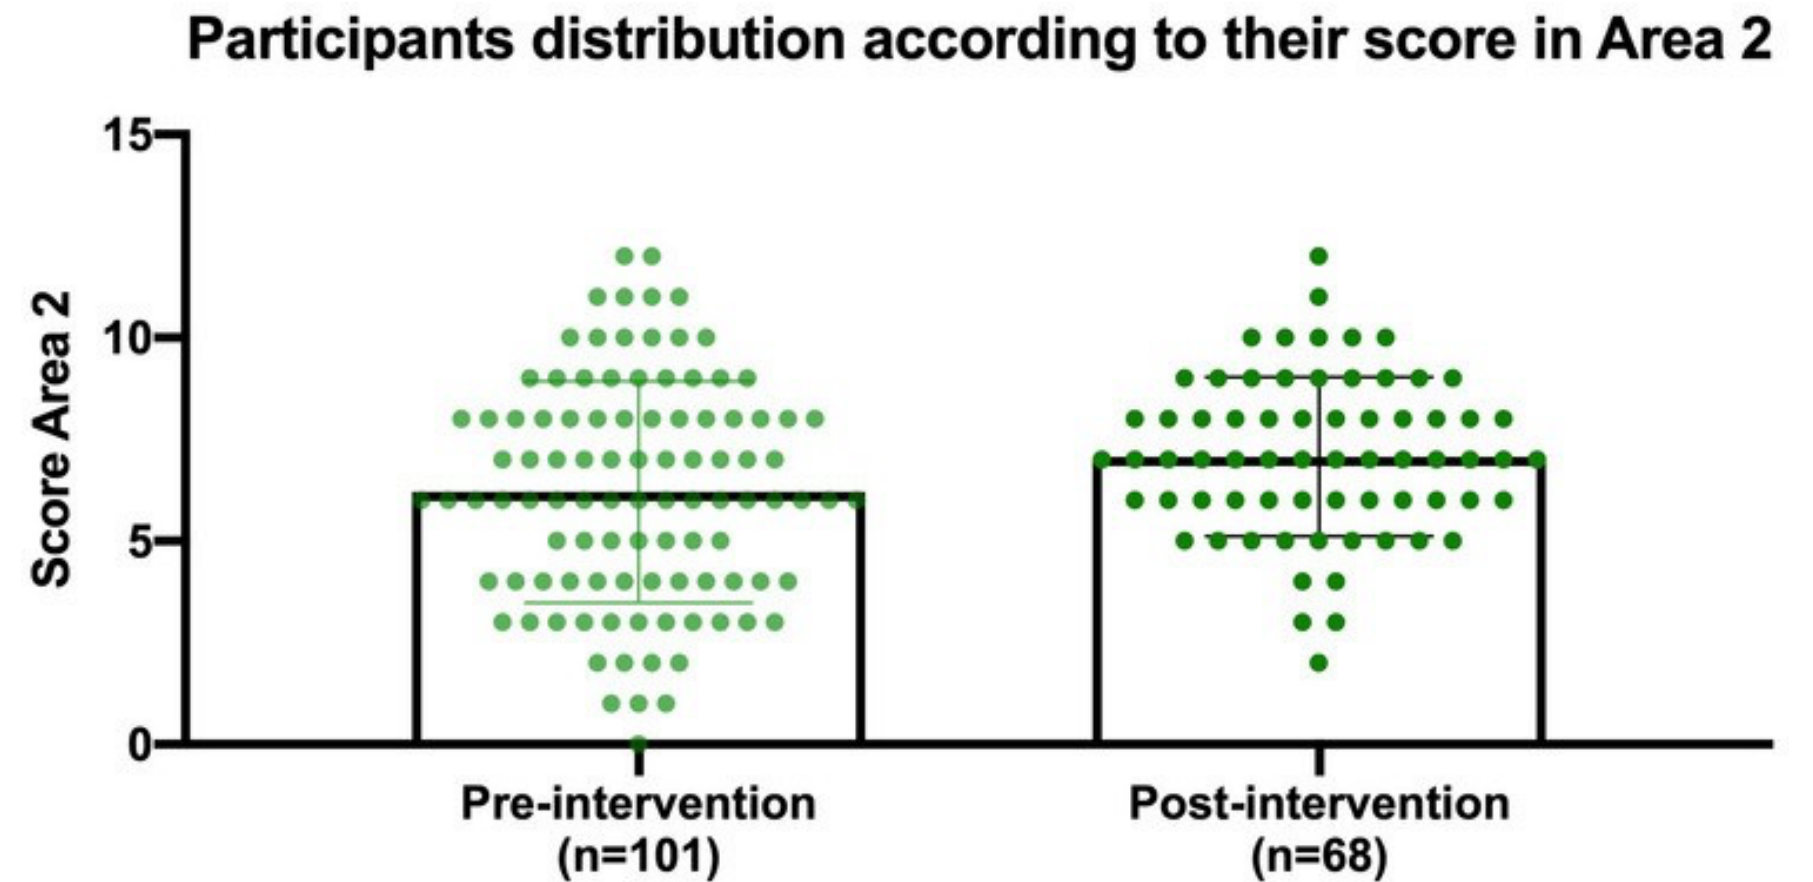

Results

Area 2 – Digital Resources

1. Selecting
2. Creating & modifying
3. Managing, protecting, sharing

T test to dependent sample (n=38)

DigCompEdu	Mean/SD – pre- intervention (n=38)	Mean/SD – post-intervention (n=38)	p
Area 2 - Digital resources	5.29/2.43	7.08/1.93	0.000*

DIGCOMPEDU - AREA 3

Results

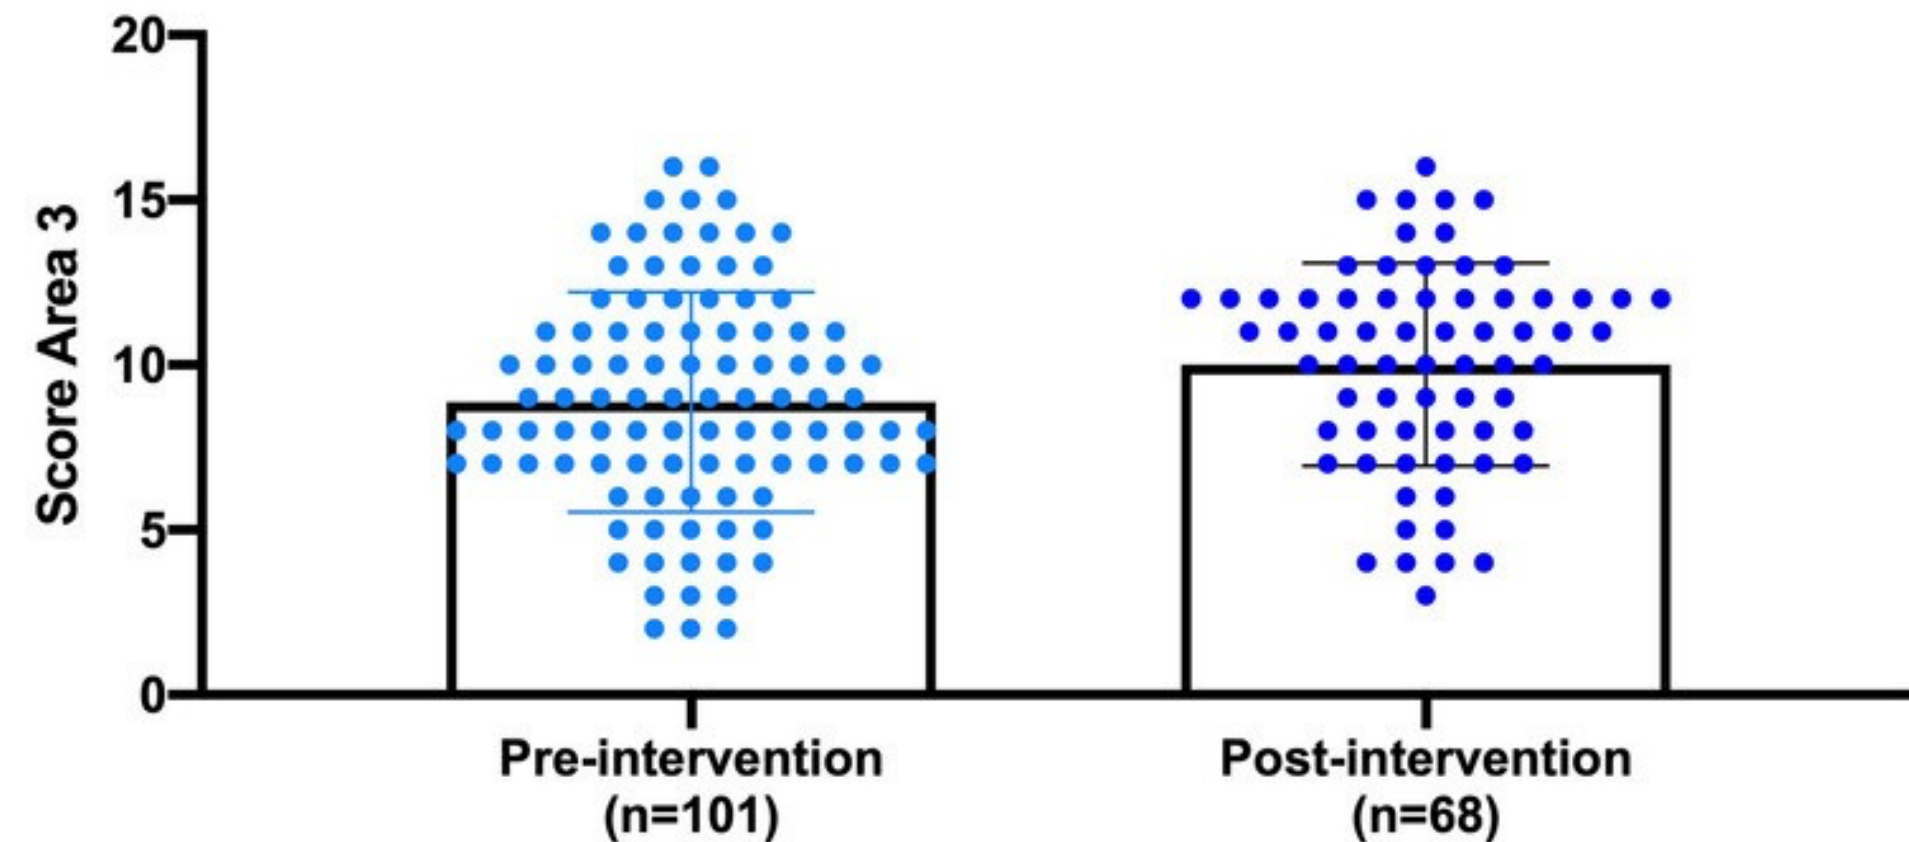

Area 3 – Teaching and learning

1. Teaching
2. Guidance
3. Collaborative learning
4. Self-regulated learning

T test to dependent sample (n=38)

DigCompEdu	Mean/SD – pre- intervention (n=38)	Mean/SD – post-intervention (n=38)	p
Area 3 – Teaching and Learning	8.87/3.10	10.63/2.88	0.000*

Participants distribution according to their score in Area 3

DIGCOMPEDU - AREA 4

Results

Area 4 – Assessment

1. Assessment strategies
2. Analysing evidence
3. Feedback & planning

T test to dependent sample (n=38)

DigCompEdu	Mean/SD – pre- intervention (n=38)	Mean/SD – post-intervention (n=38)	p
Area 4 – Assessment	5.16/2.83	6.37/2.89	0.004*

DIGCOMPEDU - AREA 5

Results

Area 5 – Empowering Learners

- 1. Accessibility & inclusion
- 2. Differentiation & personalisation
- 3. Actively engaging learners

T test to dependent sample (n=38)

DigCompEdu	Mean/SD – pre- intervention (n=38)	Mean/SD – post-intervention (n=38)	p
Area 5 – Empowering learners	4.84/2.53	6.58/2.53	0.000*

DIGCOMPEDU - AREA 6

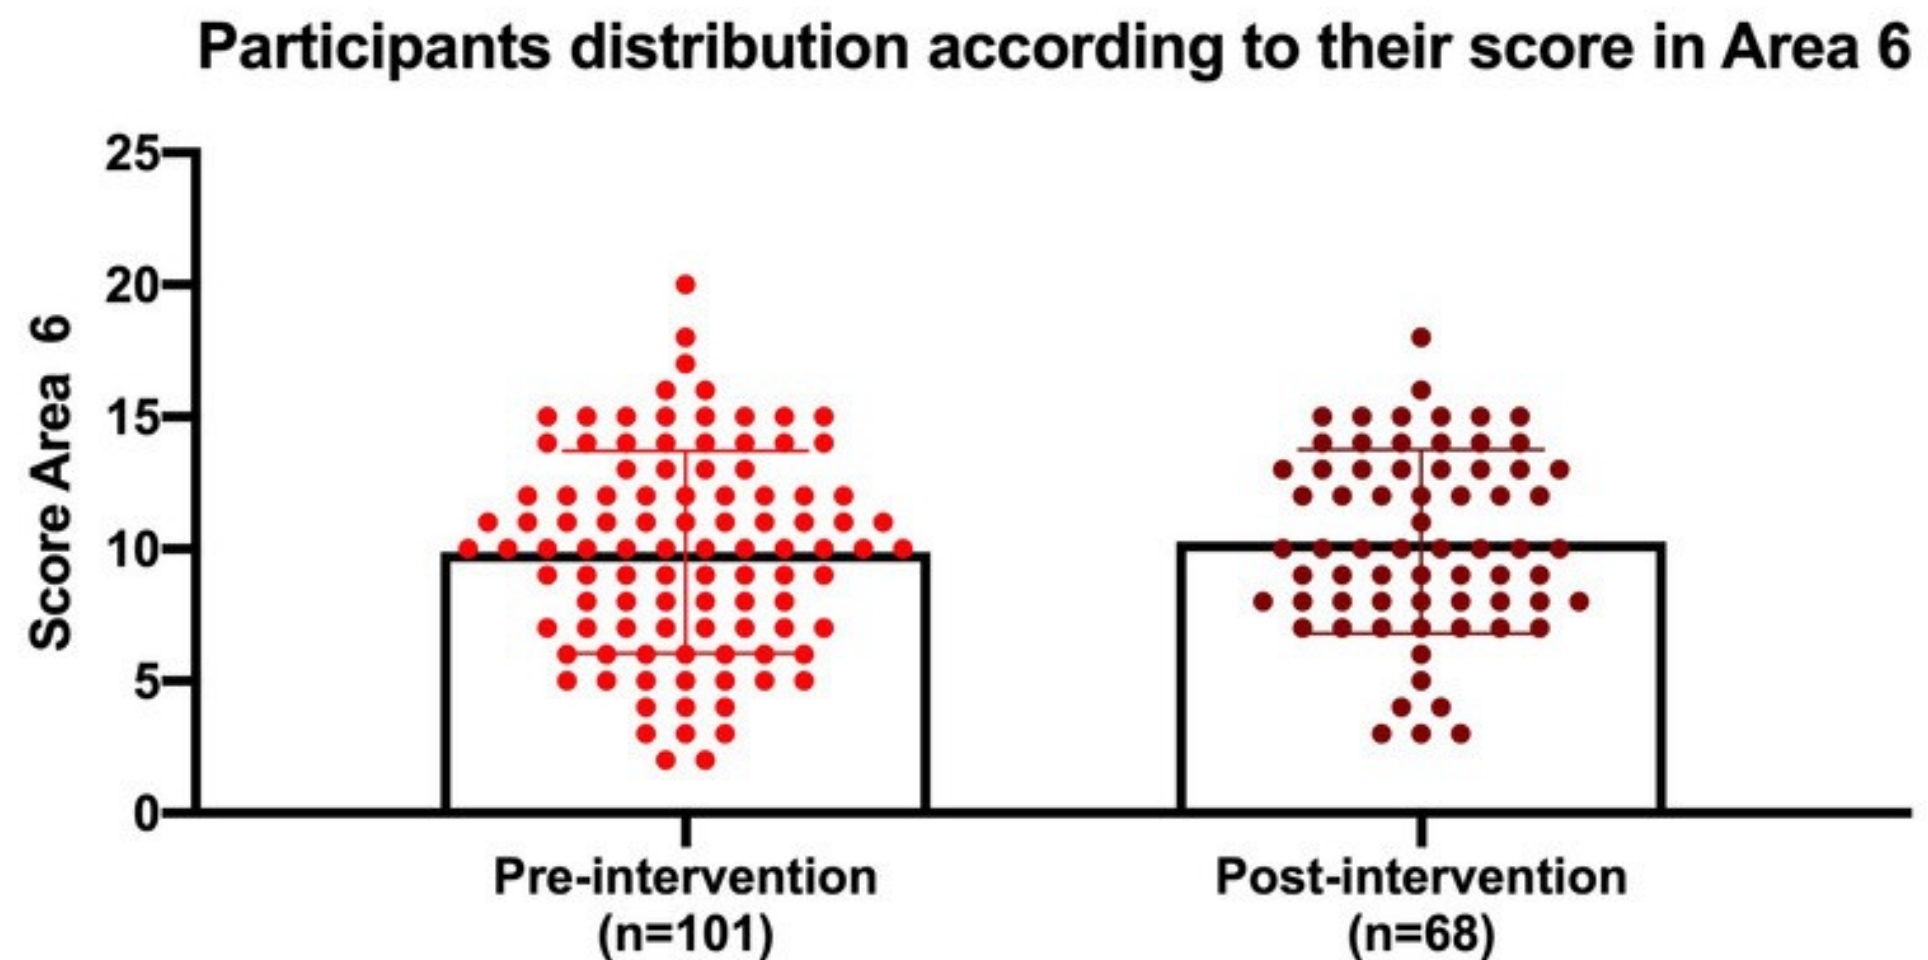

Results

Area6 – Facilitating Learners’ digital competence

1. Information & media literacy
2. Communication
3. Content creatina
4. Responsible use
5. Problem solving

T test to dependent sample (n=38)

DigCompEdu	Mean/SD – pre- intervention (n=38)	Mean/SD – post-intervention (n=38)	p
Area 6 – Facilitating learners digital competence	8.74/3.72	10.29/3.26	0.000*

DIGCOMPEDU - GLOBAL VALUE

Results

T test to dependent sample (n=38)

DigCompEdu		Mean/SD – pre- intervention (n=38)	Mean/SD – post-intervention (n=38)	p
DigcompEdu value	global	41.82/14.51	51.58/12.68	0.000*

Participants distribution according to their Global Score - DigCompEdu

Conclusion

- ONL participants had statistically significant changes for all areas verified for digital competences;
- Community building competences showed significant changes to emotional presence.

- **Are Digital Competences easier to develop than community building?**
- **Do the participants need more time to develop these skills?**

**QUESTIONS
RAISED**

- **Is there a minimal important difference for COI?**

**QUESTIONS
RAISED**
